Product Details

What is SolarMax?

You'll save big with the SolarMax plan. Get paid more for your solar, 18 Cents / kWh for the first 12 kWh per day and 12 Cents per kWh for the balance. Receive a fantastic 27% pay on time discount off both daily supply and usage rates and an additional 1% pay on time discount (28% in total) when you pay your bill by Direct Debit.

No lock in contracts, no termination fees

Free as a bird. We don't do lock in contracts. It's free to join and free to leave anytime. We also guarantee your usage and supply rates for one year from the time you join us.

Which rate applies to me?

Single Rate all times:

This tariff consists of a fixed daily charge, and then a flat per kWh energy rate which is the same at all times of the day or night. As such the tariff does not have a different price for peak and off peak. Although "Controlled Load" rates might apply. This tariff is the basic network tariff for general usage for most cases.

Controlled/Dedicated load rates:

These tariffs consist of rates for "time-switch" controlled hot water services, immersion heaters, space heaters and other dedicated loads, generally controlled between 11pm and 7am.

There is no Single Rate Solar tariffs applicable in AusNet Distribution area. For new solar system installation, tariff will have to be changed based on Ausnet Distribution applicable Solar tariff.

Time Of Use (TOU):

"Time of use" tariffs consist of a fixed daily rate, and different per kWh energy rates for peak times and off peak times. The peak times are generally between 7am and 11pm Monday to Friday, and all other times are off peak.

Flexible tariffs:

"Flexible tariffs" consists of a fixed daily rate, and different per kWh energy rates for peak times, off peak times, and "shoulder" times. The peak times are generally between 3pm and 9pm Monday to Friday, off peak times are generally between 10pm and 7am all week, and all other times are shoulder.

How often will I get a bill?

Normally we will bill you on a monthly basis after a meter read or estimation.

Electronic billing

To keep our costs, and the price you pay for power as low as possible, we prefer not to send out paper bills. Instead we normally email your bill. Paper bills are available for an additional charge.

What is SOLAR Feed In Tariff?

The SOLAR feed in tariff is an addition to all customers with roof top solar panel, it gives a feed in credit for all solar panel generation feed into the network grid. It does not change the underlying products or price offer.

Variation of tariffs

After 12 months from the time you join us, we may update your tariff from time to time to reflect market changes and or economic factors. In a case where we do need to review and change our pricing tariffs, we will notify you in writing prior to any change. The solar feed-in rates are not locked for a year and may vary depending on government changes to min feed in rules.
